Dear Harold-

In 1978, I had a long phone conversation with Jim Garrison (taped). He told me that ~~~~ Cliff Fenton headed a 5 man investigative team sent by the HCOA to see Garrison's evidence. Jim told me that they were all absolutely convinced of a massive conspiracy, in the JFK case, involving the CIA. I talked to Mr. Fenton (taped) today about this. He denied everything Garrison had told me. This is a copy of a letter I sent to Fenton today. I have sent this to Lane, Brussell, Garrison, Sprague, etc.

Yours in struggle,

Ted Gandolfo
